Remix[®] Tuned to Perform.SM

The performance you need—the upholstered comfort you love. The Remix family of seating delivers unexpected performance in a familiar form. Designed by Formway Design, Remix intelligently layers contrasting materials to provide movement and active, all-day support.

Unseat convention.

Remix combines both innovative and traditional elements, resulting in a new performance for the classic upholstered chair. It features a Tandem Back™ which delivers immediate, plush comfort paired with Flex Net Matrix™ technology that provides resiliency, flexibility and support. Adjustable tilt tension and a three-point tilt lock offer personalized fit and a deep dwell.

Remix has a wraparound back that offers responsive comfort when moving through postures.

The Flex Net Matrix, opposite, is made from the same high performance elastomer as the Generation by Knoll® chair, specially engineered in this application to pair with a layer of cushioning for added comfort.

Work in harmony.

The Remix family of seating has a versatile scope that spans the workplace, from private office to open plan and conference room settings. With innovative performance elements and advanced ergonomic comfort, Remix supports fast-paced, demanding work environments.

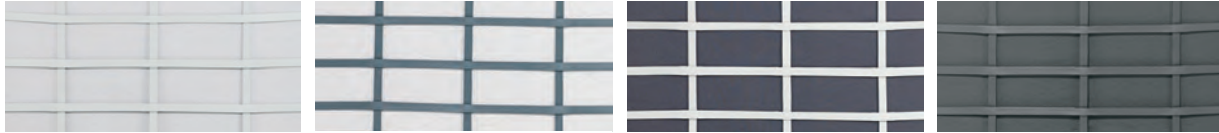

Remix infuses movement into a traditionally static upholstered chair, taking ergonomic support to the next level.

Tuned to you.

Remix celebrates an unconventional mix of materials with its expressive outer back that can boldly stand out or subtly blend in. With classic stitching and clean lines, Remix has a modern, refined aesthetic complementary to any environment.

The Flex Net Matrix and outer back textile are each available in 2 colors, resulting in 4 outer back combinations which can complement or contrast each other.
